

Name _____

Period _____

Small Gas Engines I

- On my webpage in Small Gas Engines; 12th packet on the list
- [Small Gas Engine Parts and Operation](#)
- You should provide this sheet as a cover sheet.

1. What are all of the parts to the small gas engine. Give a brief description of the location and function. (There are many parts so this section will be very lengthy)
2. Research and Describe; in "[Engine Notes](#)"(Not the parts list) section # 6-24

Remember: There is a great deal of information on this power point that I have shared and I am asking that you now take the time to "do a good job" with this information. It will make your process of working on your engine much easier. This is the Why and How of the class. Thanks.
